

AMERICAN INTERNATIONAL UNIVERSITY BANGLADESH (AIUB)

Faculty of Science and Technology (FST)

Department of Computer Science (CS)

Course: Web Technologies

Lab Task 02: Educational Institute Website

Instruction:

- 1. Complete the task**
- 2. After completion, push the code in the GitHub repository.**

Scenario:

Bright Future Academy needs a simple website to provide information about courses, teachers, and admission process.

Steps:

1. Create a new folder called academy-website
2. **Create the following HTML pages:**
 - a. index.html (Homepage)
 - b. courses.html (Courses offered)
 - c. faculty.html (Faculty information)
 - d. admission.html (Admission process)
3. **On the homepage, include:**
 - a. Institute name and banner
 - b. Navigation to all pages
 - c. Latest announcements section
 - d. Quick links to important information
4. **On the courses page:**
 - a. Create a table showing course details (name, duration, fee)
 - b. Use different heading levels for course categories
5. **On the faculty page:**
 - a. Display faculty members with their qualifications
6. **On the admission page:**
 - a. Show upcoming admission information
