Lab Task 05: Travel Agency Landing Page

Instruction:

- 1. Complete the task**
- 2. After completion, push the code in the GitHub repository.**

Scenario:

Wanderlust Adventures travel agency needs a responsive landing page to showcase their vacation packages and attract customers. The page should highlight their best offers and make it easy for visitors to explore destinations.

Steps:

1. Create a new folder called travel-agency
2. Create an index.html file
3. Set up the basic HTML5 structure with proper meta tags
4. **Design the landing page with the following sections:**
 - a) Navigation bar with logo and menu items (Home, Destinations, Packages, Contact)
 - b) Testimonials from satisfied customers
 - c) Footer with contact information and social media links
5. **For each destination card, include:**
 - a) Destination image (use placeholder images)
 - b) Destination name
 - c) Brief description
 - d) Price range
 - e) "Learn More" button
6. **Create a packages table showing:**
 - a) Package name
 - b) Duration
 - c) Price
 - d) Inclusions
 - e) Book Now link

7. Use appropriate semantic HTML5 elements:

- a) <header> for navigation
 - b) <main> for main content
 - c) <section> for different content areas
 - d) <article> for destination cards
 - e) <footer> for footer content
8. Add a "**Back to Top**" link at the bottom of the page
9. Test all links and forms
